

Proposed Job Order - Composite Construction Systems, Inc
Construction Laborer Helpers - 13801 N. 46th St., Tampa, FL 33613

Job Description

Composite Construction Systems, Inc. located at 5300 Transport Blvd Columbus, GA 31907, phone number: +1 (706) 561-8500, is seeking 20 temporary full-time Construction Laborer Helpers to work at 13801 N. 46th St., Tampa, FL 33613, from October 1, 2026 to June 30, 2027. The Construction Laborer Helper will support specialized construction crews in the assembly and installation of light-gauge prefabricated metal wall systems, metal decking, and temporary shoring under direct supervision. The worker will assist with framing, prefab wall installation, and general construction tasks by loading, unloading, staging, sorting, and manually carrying light-gauge steel studs, metal tracks, corrugated metal decking, prefabricated wall panels, and related construction materials throughout the worksite. The worker will hold and stabilize materials while skilled workers position and secure them, assist with layout by using tape measures and laser levels to verify measurements and alignment, prepare work areas, organize hardware and materials, remove debris, collect steel scrap, and perform general site cleanup. The worker will also assist with moving ladders, tools, and equipment as directed. Personal protective equipment (PPE) is required and provided by the employer at no cost. Tools and equipment used include tape measures, laser levels, ladders, brooms, shovels, manual hand tools, hard hats, safety vests, safety glasses, gloves, and fall protection lanyards. The prefabricated structural components consist of light-gauge steel wall panels, cold-formed steel studs, metal framing tracks, corrugated steel floor and roof decking, temporary shoring components, wood wall bracing, and related metal framing components used in commercial building construction. These components are manufactured primarily from galvanized cold-formed steel, with temporary wood bracing used to stabilize wall systems during installation. The Construction Laborer Helper assists in positioning, aligning, and holding these prefabricated components while skilled workers permanently secure them using bolts, screws, anchors, or other fastening methods appropriate for the project. Perform site layout and measurement to assist with construction of commercial buildings. Install temporary shoring, bracing, and safety rails to ensure compliance with jobsite safety standards. Load and unload materials and tools from trucks; transport them to appropriate work areas using manual or powered equipment. Operate power tools and hand tools including saws, drills, hammers, and impact wrenches to assist with framing, prefab wall installation, and general construction tasks. Position, align, and secure prefabricated structural components using bolts, nails, or adhesives. Set up and operate portable generators to supply temporary power for tools and equipment. Operate various jobsite equipment including forklifts, boom lifts, and scissor lifts, in accordance with OSHA and site safety protocols. Assist skilled tradespeople as needed with framing, demolition, and finish work. Maintain a clean and organized jobsite through regular housekeeping duties and debris removal. Perform inventory checks and material handling to support job progress and prevent delays. Serve as a flagger to direct traffic and maintain safety during deliveries or crane operations.

Job Requirements

No prior education is needed; however, 3 months of similar experience is required. On-the-job training will be provided. Must be able to lift and carry 75lbs/75yds. Some weekend work required.

Salary/Wages/Benefits

\$21.37 an hour weekly, or approximately 50 hours per week, up to 10 overtime hours may be offered, however are not guaranteed. From Monday through Friday, 8:00am to 5:00pm. Applicants may be offered more than advertised. The wage rate may vary based on experience and/or merit. \$32.06/hr for overtime. All deductions from the worker's paycheck will be made as required by law. The employer will use a single workweek as its standard for computing wages and pay weekly by check. Any advances will be deducted with the consent of the employee.

All deductions from the worker's paycheck will be made as required by law. The employer will use a single workweek as its standard for computing wages and pay weekly by check. Any advances will be deducted with the consent of the employee.

In the first workweek, the cost of transportation (including meals and, to the extent necessary, lodging) to the place of employment will be directly reimbursed to every worker. If the worker completes 50 percent of the work contract period, the employer will reimburse the worker for transportation and subsistence from the place of recruitment to the place of work. Upon completion of the work contract or where the worker is dismissed earlier, the employer will provide or pay for the worker's reasonable costs of return transportation and subsistence back home or to the place the worker originally departed to work, except where the worker will not return due to subsequent employment with another employer or where the employer has appropriately reported a worker's voluntary abandonment of employment. The amount of transportation payment or reimbursement will be equal to the most economical and reasonable common carrier for the distances involved. In the first workweek, daily subsistence for travel to the place of employment will be reimbursed at a rate of at least \$16.78/day to a maximum of \$68.00/day with receipts. Also, workers will be reimbursed in the first workweek for all visas, visa processing, border crossing, and other related fees, including those mandated by the government (except passport fees). The employer will provide workers without charge or deposit charge for all tools, supplies, and equipment required to perform the job.
