

# SAFETY PROTECTION CABLE / GUARDRAIL RELEASE

**DATE:** \_\_\_\_\_

**TO:** Controlling Contractor Co: \_\_\_\_\_  
Contact Name: \_\_\_\_\_  
Contact Title: \_\_\_\_\_

**VIA:** Email: \_\_\_\_\_  
Fax: \_\_\_\_\_

**FROM:** Composite Construction Systems, Inc.

**PROJECT:** \_\_\_\_\_

**LOCATION:** \_\_\_\_\_

Composite Construction Systems, Inc. has installed safety protection cable/guardrail at:

\_\_\_\_\_  
Location/Area

As of \_\_\_\_\_ (Date) we have completed our scope of work in this area and no longer have use for the safety protection/guardrail. Per OSHA Standard 1926 Subpart R, Steel Erection and AISC Code of Standard Practice, Section 7, Paragraph 7.11.2, we may leave protection cable/guardrail in place for use by Controlling Contractor and other trades if asked to do so. OSHA requires that if safety cable/guardrail is left in place that the Controlling Contractor must maintain it so that it is adequate fall protection for all other affected trades and complies with all applicable safety regulations.

The undersigned authorized representative of Controlling Contractor hereby directs Composite Construction Systems, Inc. to leave the above-referenced protection cable/guardrail in place and hereby accepts responsibility for control and maintenance of the safety protection cable/guardrail. By doing so, Controlling Contractor indemnifies Composite Construction Systems, Inc., from any damages incurred as a result of the use of such protection cable/guardrail by others.
